The Sutro Tunnel

From the New York Tribune July [illegible]

The application of Adolph Sutro and his associates in the Sutro Tunnel Company to Congress for the loan of Government bonds to the amount of five millions of dollars to aid in boring a tunnel for draining and removing the ore from the celebrated Comstock lode in Nevada calls for a grant of a novel character. We are opposed to aiding public or private enterprises of any kind unless there are the most unequivocal proofs of the necessity profit and safety of doing so, and we have therefore examined this project with every predisposition to oppose it. If our prejudices have been reversed by investigation it is probable that the same facts that convinced us of the propriety of such a grant may convince others.

The Comstock lode is geologically a fissure vein [illegible] created by a volcanic convulsion rending the earth's crust and filling the rent by injection from below, filled with mineral quartz bearing both gold and silver in the proportion of $2 in silver to $1 in gold. It appears upon the surface for several hundred feet in width and several miles in length running north and south and dipping at an angle of 45 deg. to an indefinite depth. Upon this ledge some thirty or forty mining companies have claims, forty seven shafts have been sunk some of them to a depth of eight or nine hundred feet, and within six years past over $60,000,000 of gold and silver bullion have been extracted while the present annual yield exceeds $16,000,000. But the best geologists certify that the Comstock is a larger and more regular and permanent vein than either the great Potosi mine of Bolivia which yielded $1,200,000,000, the Veta Madre of Guanajuato $800,000,000 or the Veta Grande of Zacatecas $650,000,000—the two last being the richest mines of Mexico. It is fair to assume that the wealth of the Comstock lode has only been tapped at the surface and yet the shares of the mining companies are declining in value, the mines are upon the verge of suspending operations, and if unassisted by the Government, must shortly reach the limit beyond which every dollar of ore extracted will cost more than a dollar to extract it. This is because first, as the shafts descend the cost of pumping up the water expelling the foul vapors, and raising the ore increases in almost geometrical ratio and secondly, the companies working separately are each compelled to pay for separate engines works fires, and to sustain a separate set of workmen and officers. The expense of each company draining its own mine exceeds any consolidated system which would drain all the mines as in a city the expense of each householder building his own water works sewers gas works etc., would exceed the expense of having water gas and sewerage furnished by one source. These expenses have so increased that the three hundred tons of gold and silver extracted last year, worth $16,000,000 were mined at a cost of $15,000,000 leaving only $500,000 profit which would be a very moderate interest on the capital invested. Indeed careful computation shows that the shafts cannot be sunk to a depth of 1,900 feet without increasing the cost of pumping to $500,000 per annum and that long before this stage would be reached the works would have to be wholly abandoned. Nor is the increase in expense the only objection to pumping. The pumping works introduce into the mines a vast quantity of wood work and machinery which soon rots and wears out and requires replacing. Meanwhile the mines are always heated damp and dangerous to the lives of the miners while any cessation in the exhausting and profitless labor of pumping fills up the mines and destroys the results of the capital and labor previously expended.

The Sutro Tunnel Company propose to drain the mines both of water and ore by a nearly horizontal tunnel seven miles long running from the base of the mountain and striking the lode at a point 2,000 feet below the surface with side galleries constructed as to serve all the companies operating on the lode. The tunnel would be twelve feet in width and ten in height which would afford sufficient space for a railroad for ore each way and for a stream of water underneath with a descent of one inch per hundred feet. The moment the tunnel is complete it drains and ventilates all the mines perfectly by the force of gravity.

Such enterprises are familiar to the miners of Europe. Little Saxony has constructed more than a hundred miles of mining tunnel. Hanover nearly as much. Some of their tunnels are nine or ten miles in length. The Sutro tunnel will pierce three or four considerable lodes before striking the Comstock and the amount of mineral wealth which it will make available is almost incalculable. It is reasonable to suppose that it will increase the production of the Comstock lode alone to $50,000,000 a year. From the great depth at which it strikes the lode it will drain the mines for a hundred years. The Tunnel Company have obtained agreements from the proprietors of all the mines to be drained for the payment of royalty of $2 per ton on all ore extracted after the tunnel strikes the lode which would insure the company an income it is believed of $2,000,000 per year the whole of which is pledged to the payment of the Government bonds loaned to aid the company. It is expected that the tunnel would be completed within four years, and that the $5,000,000 loaned would be repaid from the profits of the tunnel within three years thereafter. Sutro has prosecuted his undertaking with an energy worthy the grandeur and importance which must attach to it [illegible] Besides the hearty co-operation of the Legislature and people of Nevada and of the mining companies interested and of the Committee of the House on Mines and Mining to whom the subject was referred [illegible] the press of the Pacific States and the mining interests his project is indorsed by such distinguished experts as Professor Bowen of Harvard, Baron Von Beust, Chief of the Mining Department of Saxony, Bernard Von Cotta, Professor of Mining and Geology at Freiburg, J. Weissbach, Royal Saxon Mining Councilor and Professor Dr. Von Dechen, Chief of the Mining Department and Privy Councilor of Prussia, H. Koch, Royal Prussian Chief Mining Councilor, Bruno Kerl, Professor at the Royal Mining School at Berlin, Michel Chevalier, the French Economist and Senator, A. Daubree, Inspector General of the mines of France and many others of like eminence and familiarity with the subject. If the construction of a single tunnel like that proposed would demonstrate to practical miners and capitalists the utility of such enterprises wherever operations have been prosecuted on fissure veins to a depth that renders [illegible] the [illegible] and would thus lead to the prosecution of other similar enterprises by private capital. The case is a unique and peculiar one. The consequences of withholding the aid will be the speedy destruction and loss of the private capital now invested in mines to five times the value of the aid sought, while the consequences of granting the aid will probably be to add very heavily to our annual product of gold and silver upon which we rely as our means for the discharge of the national debt. The prospect that the Government will be speedily paid the amount advanced seems to be more immediate than in the case of any similar aid it has ever given. The only question then it seems to be not whether the aid should be extended, but on what terms. With every allowance for the energy with which Sutro has prosecuted the work in the hope of enlisting private capital in the enterprise it would seem reasonable that if the Government furnished the entire means of bringing it to a successful conclusion and sustains all the risk of the operation it should be paid not merely the principal and interest of the amount advanced but a perpetual royalty upon the proceeds of the operation of the tunnel which might wisely be devoted to the endowment [illegible] or to the payment of the national debt.

For Grant and Colfax

The following is the letter written by P. H. Sibley, lately a member of the Democratic State Central Committee of California repudiating Seymour and the Democratic platform and coming out for Grant and Colfax:

Gentlemen of the Democratic State Central Committee—I would be doing violence to my own feelings and guilty of unfairness to you did I continue longer to share your counsels and possess myself your plans in the coming political campaign. In sentiment and sympathy I am no longer with you. My judgment neither approves the platform of principles put forth by the New York city Convention nor does my sense of duty to the country justify me in aiding to advance Horatio Seymour to the office of President of the United States. Remembering that I am a Democrat I cannot forget I owe a higher allegiance to the American Union. I should be glad to remain in the Democratic party could I believe that in doing so I am not sacrificing those principles of patriotism that are higher and holier than any sentiment of mere party fealty. I believe that the war was inaugurated by the South in the interest of slavery. I believe it was the duty of the Government to resist the heresy of secession by arms. I believe the calling out of troops, the draft of soldiers, the prosecution of war against rebellion was Constitutional and necessary for the preservation of the life of the Republic. I believe the emancipation of slaves was necessary and unavoidable as a war measure. I believe the creation of a National Debt grew out of the exigencies of the long continued and desperate conflict. I believe that the issue of paper currency was an evil incident to the struggle. I believe that the national debt should be paid to the last dollar in coin of the national Mint and that no form or measure of repudiation is consistent with national honor.

I am opposed to the taxation of Government bonds, as a breach of covenant made with the bondholders, and I am opposed to paying these bonds with currency instead of gold. I am not in any degree fearful of [illegible] supremacy, nor do I believe that if the [illegible] are conceded their just rights under the law there will be any danger of elevating them to a social equality with any superior race. I am and have ever been opposed to mob violence, and I will never cast my vote nor use my influence to advance to high [illegible] any man whose Governor of a great commonwealth could fraternize with a mob or encourage opposition to just laws, or who when the Nation needed its last man to put down the rebellion could by opposing the draft put himself and the State in hostility to the General Government.

I could have supported a war Democrat like Hancock or Hendricks. I could support a Republican like Frank P. Blair, Jr., your candidate for Vice President. His early stand for the rights of the black man, his opposition to slavery, his brilliant war record, commencing in the streets of St. Louis and ending in Sherman's march through Georgia, I approve; but as I cannot sustain Blair without sustaining Seymour, I feel in duty and conscience compelled to vote for Grant and Colfax.

I shall expect the bitter animadversions of all who love the Democratic party better than they love their country. I shall expect to have my motives questioned and my honor impugned. I shall expect to be assailed by partisan malignity, and to have heaped upon me an unlimited amount of personal abuse, but conscience of the rectitude of my motives and in the confident belief that I am but doing my duty, I have deemed it proper to resign my position as a member of the Democratic State Central Committee. I therefore respectfully tender you my resignation, gratefully remembering our past pleasant relations, and so entertaining for you all only kind personal feelings.

I am very respectfully gentlemen

The Sandwich Islands

The *Occident*, published at San Francisco, says:

"A question of no little interest, both in a political and commercial as truly as in a religious, point of view, is that of the annexation of the Sandwich Islands to the United States. It seems to be settled that those islands must, sooner or later fall as a prize into the hands of some foreign power. Their proximity to this country, their adaptation to the wants of a commerce rapidly augmenting, their natural resources, the danger that under the domination of another government they might be inimical to this, are potent arguments for their annexation. Then it is well known that the best informed and most loyal Americans residing there are in favor of this plan. Leaving entirely out of the discussion the religious interests these islands must have in the eyes of Americans resulting from the long continued labors of missionaries, it may well awake concern in the mind of every true lover of free institutions as he is enjoined to know that systematic efforts are constantly being put forth by designing men to advance monarchical views and create distrust and dislike of the United States in the minds not only of the king and nobles but also of the common people of the Islands. Political and commercial necessities make it imperative that our Government take decided action to secure such advantages there as our position demands and justice clearly warrants."

ONE OF THE LOYAL DEMOCRATS.—Gen. Wade Hampton lately delivered an oration at the Virginia Military Institute, and in reply to a toast to the fallen heroes of the war, he said (We copy from the report in the Richmond rebel papers.)

"Alluding most touchingly to our martyred dead, he said that our grief should be tempered as we remember that they fell when they thought they would not fall in vain—that they fell in the struggle [illegible] that success would crown our efforts. But he did not believe they had fallen in vain—the cause for which Jackson and Stuart fell cannot be in vain but in some form would yet triumph. He proposed the 'Lost Cause' for which our heroes fell. This was drunk silently and solemnly by all, and on looking around we observed that nearly all were Confederate soldiers."

This rebel speech is the more significant now from the fact that Wade Hampton was one of the active members of the late National Democratic Convention, and also particularly zealous for the nomination of General Blair. Mark how well his sentiment harmonizes with that of Governor W[illegible] who declares the spirit of the rebellion still lives. General Wade Hampton is a bright and shining Democrat. How proud War Democrats ought to be of his political association.

Says the San Francisco *Times*: Democratic economy! Pshaw! Who ever heard of it unless the party was out of power. Look at Buchanan's administration. If the same party had controlled the Government during the succeeding term when the immense expenditures were going on they would have bankrupted the nation by their stealing and compelled the stoppage of the war. Look at the Democratic city of New York with the most corrupt municipal government in the world. Look also at our Democratic Assembly last winter elected upon pledges of economy but of which their own organ said that the man in the moon held his nose as he passed over Sacramento, the stench of corruption was so great. Look at the greatest frauds that have been committed under the present administration, those of whisky rings and tobacco rings composed mainly of Democrats.

The Democracy have recently sent on Thomas E. Younger, an intelligent educated colored man who recently worsted the radical Judge [illegible] in a discussion in Tennessee where he is to open the eyes of the people of his race who are being duped by the carpet baggers and home radicals of that oppressed State." The Democracy are progressing.

Cheyenne has 53 dry goods and clothing stores, 11 drug stores, 50 groceries, 120 saloons, 16 dance houses, 6 billiard saloons, 15 wholesale groceries, 18 hotels, 9 restaurants and 15 livery stables and corrals.

Grant and Freedom.

From a speech recently delivered by Judge Lawrence of Ohio we reprint the significant extracts below. Eulogizing the Republican candidate for the military and administrative genius which he has established by irrefragable proofs, never to be obliterated from the annals of the nation the speaker proceeds to illustrate the early convictions of General Grant, touching the high questions of human rights. Read:

During the progress of the war, and in advance even of the statesmanship of Lincoln and his Cabinet Gen Grant foresaw the necessity of emancipation not only as a means of suppressing the rebellion but to the future peace of the country and on the 30th day of August, 1862, he addressed a letter to Mr. Washburne of Illinois, in these words:

VICKSBURG (Miss.) Aug 30, 1863

Dear Sir: The people need not quarrel over the institution of slavery. What Vice President Stephens acknowledges as the corner stone of the Confederacy is already knocked out. Slavery is already dead and cannot be resurrected. It would take a standing army to maintain slavery in the South if we were to make peace to-day, guaranteeing to the South all their former privileges. I never was an Abolitionist—not even what could be called Anti Slavery, but I try to judge fairly and honestly and it became patent to my mind early in the rebellion that the North and South could never live in peace with each other except as one nation, and that without slavery. As anxious as I am to see peace established, I would not, therefore, be willing to see any settlement until this question is settled. [illegible]

"This was the precursor of the Proclamation of Emancipation, which made Lincoln immortal; and as he invoked upon it [illegible] on this, the considerate judgment of mankind and the blessing of God, [illegible] of statesmanship which [illegible] letters at the head of every copy of the P[illegible] tion of Emancipation."

MERCY AT LAST!—Gov. [illegible] has pardoned Mrs Catharine Mc[illegible] the old lady who has been in the State Penitentiary for four years. This case is too well known to need any mention. This old woman, full of [illegible] tion heroically sacrificed herself to save [illegible] from the gallows. The son had killed his [illegible] and the mother, to avert the doom of her offspring, claimed and [illegible] that it was she who committed the murder, and on her own [illegible] was condemned to be hung. Are we to Have a Telegraph Line from Portland to Idaho?

We have deferred speaking of this subject at length until we could do so with some satisfaction to ourselves and as the subject is one of vital importance to the whole extent of country through which the proposed line is to run, and especially to the city of Portland we now desire to place the facts in regard to it before this community and urge upon our people the importance of giving this project their hearty support

The initiatory step to this enterprise dates back to April last at which time articles of incorporation signed by S G Reed J B Harker John R Foster W S Ladd and B Goldsmith were duly filed in accordance with law The name given to the incorporation was the "Oregon and Idaho Telegraph Company,"—the object being to construct a line of telegraph from Portland to Dalles, Umatilla, Wallula, Walla Walla, and thence through to the Grande Ronde and Powder River Valleys to Boise Silver and Idaho cities and eventually to connect with the line already constructed from Salt Lake to Montana The distance from Boise City to make this connection is, as stated, 180 miles The principal office and place of business of the Company is at the city of Portland The capital stock is $50,000, divided into shares of $100 [illegible] Stock books have not yet been opened and a law of our State makes it compulsory that all the stock shall be subscribed, directors elected and the transaction of business commenced within one year from the time when the articles of incorporation are filed

After the articles were filed subscription papers were sent to several towns along the line, the substance of which was that the subscribers thereto severally agreed to pay the amounts subscribed, on condition that the company should construct a line of telegraph from Portland to the various towns where said subscriptions were made, and that the amounts thus subscribed should be refunded by the Company in telegraphing, and further, that upon payment of the money according to the terms of [illegible], the Company shall issue certificates for the amounts thus paid, which certificates shall state that it was payable in [illegible] telegraphic dispatches over the line and was also transferable to other parties in the town where the subscription was made From some of the towns the subscription papers have been returned with quite liberal amounts subscribed, showing that the people of those localities take the proper view of the [illegible], and are willing to aid the enterprise, [illegible] we are sorry to say, have [illegible] short-sighted policy, and have not given the project that support which their interests would [illegible] them in doing. Their failure may perhaps be attributed more to a [illegible] that the line would be built than to any other cause; and hence for the benefit of all parties interested we have taken some pains to find out how matters stand and what the probabilities are of having the line completed.

It should be stated that while the operations just detailed were going on, the Oregon Steam Navigation Company were constructing a telegraph line from Portland to Celilo which has since been completed and is now in full operation. The entire cost of this line we learn is $9,781 32. The distance is 105 [illegible]

The O. S. N. Co., as we learn, now propose that providing the means for extending the line to the points above named can be obtained they will turn their line over to the Company at its cost and receive stock of the Company in payment From Celilo the length of line required to reach all the points named would be 485 miles, and the estimated cost of construction is $60,000 The time within which it can be completed is placed within three months. The following is a proposition made by the "Western Union Telegraph Company" for providing materials necessary for the construction of the entire line:

The Western Union Telegraph Company will furnish all the material necessary for the construction of the Portland and Idaho Telegraph line, excepting poles and will deliver the same at Portland at the same prices charged for material as furnished by them for the line between Portland and the Dalles, built by the Oregon Steam Navigation Company, and will receive in payment therefor the first mortgage bonds of said Portland and Idaho Telegraph Company [illegible] in five years from date bearing interest at the rate of six per cent per annum, payable semi-annually, and will give said Company a [illegible] fifty-twenty per cent. on the Western Union tariff on all San Francisco business delivered by said Portland and Idaho Company to the Western Union Company at Portland, provision to be made for an exclusive business connection between the companies, and satisfactory evidence to be furnished before the shipment of the materials that a sufficient amount of money has been raised by said Portland Company to complete the line as proposed

(Signed) GEO H MUMFORD,
[illegible] For the Western Union Telegraph Co
Portland, July 22d, 1868

At the rates referred to for materials furnished the O S N Co for their line from Portland to Dalles, it is estimated that about $20,000 will cover the cost of completing the line as proposed,—thus leaving $30 000 to be raised for the purchase of poles and construction Now the question is, how can this amount be raised and thus secure at once the the building of the line? There is not a doubt but liberal subscriptions could be obtained from the towns along the line if the subject were fairly represented to them and they had full [illegible] privilege of having a telegraph this fall But they look upon Portland as the emporium of the whole upper country and expect her to take the lead in such enterprises Now will the business men and property holders of this city come forward in aid of this enterprise either by subscriptions to the stock of the company or by subscriptions to be refunded in telegraphing as they may request it, and thus secure the building of the line or will they by their inactivity let this favorable opportunity pass and eventually be entirely cut off by the construction of a telegraph line from the Central P R R to Idaho These are matters well worth considering, and those interested in the trade and prosperity of Portland ought to consider them well.

The Reno (Nev.) *Crescent* reveals that the gearing of a saw mill there was torn all to pieces by the saw coming in contact with a ten pound stone in the heart of a solid log When the tree stood, the stone was twenty feet from the ground, and had probably been laid in the crotch by some long defunct aboriginal

[illegible] A Democrats.

The Democratic platform says nothing against negro suffrage. The [illegible] have forgotten that this is a white man's government. Those who have been [illegible] the [illegible] party [illegible] position on the suffrage question may now see how little their Democracy amounts to The Democratic Convention [illegible] to declare against negro suffrage because the party wants the negro vote and hopes to get it. This shows that the opposition of Democrats to negro suffrage has [illegible] purely from a [illegible] that the negroes would not vote their ticket But the result of the Mississippi election, where most of the blacks voted Democratic and thus defeated the Constitution gave them a hope that they might permanently secure the negro vote and their policy and views on the subject have undergone a sudden and radical change Eastern Democratic journals are chuckling over the crop of Democratic niggers in Mississippi and elsewhere in the South and the chivalry forgetting the odious idea of nigger equality, are mixing in with the blacks everywhere for the purpose of controlling their votes To show how affairs are coming on in Mississippi we copy the following from papers published there Here is the Meridian *Gazette* rejoicing over the election in such headlines and paragraphs as these

CHEERING NEWS—THE BATTLE OPENED—DEMOCRACY ALL RIGHT—THREE CHEERS FOR COLORED CONSERVATIVES

By passengers who arrived on the Southern road Monday night, we have the following cheering election news

At Lawrence, Newton county sixty nine votes were polled—all Democratic—fifty nine white and *ten colored*

At Chunkey Station Newton county sixty two votes were polled—all Democratic—*white and black* voting against the Constitution

Steen's Creek—Registered vote 159 white 218 colored Democrat 251, Radical 54 Sixty one Democratic colored votes cast at this box

Drake's Church—Democrat 120 Radical 91 Thirty three colored voting Democratic *Majority* in Rankin as far as heard from, 400

And here are some of the rejoicing paragraphs

The Yazoo *Banner* publishes the names of forty seven colored voters, who have organized themselves into a Conservative Club

A great auction sale of carpet bags and contents will take place at Vicksburg on the Fourth of July The proprietor of the Salt River packet having refused to credit the owners of said property it will be sold without reserve, to defray the expenses It is expected and believed that the people of Mississippi will pay a portion of the passage money for the sake of getting rid of these carpet-bag pests Negroes who desire to accompany the carpet-bag gentry, can go as servants, if they can clothe and feed themselves

The colored voters were appealed to as follows

Let the colored voters remember that this Constitution does not confer on them the right to vote They have that anyhow By voting for the Constitution they vote to disfranchise a large class of the best men in the State. If they commit this injustice and wrong, it will surely recoil on themselves They cannot expect employment, aid or support from men whom they vote to degrade."

Oregon Incomes

We commence to-day the publication of the Income Tax List of Oregon for the year 1867 The incomes of each county will be given separately The figures given indicate the amount of income over $1,000 in currency of each individual—the sum of $1,000 being exempt from taxation.

Worthy of Imitation

The Republicans of California are entering upon the Presidential campaign with a united will and earnest determination which promises the best results In all parts of the State they are moving enthusiastically for Grant and Colfax Their activity is especially noticeable in San Francisco They believe they can carry the State and they are working to accomplish that result The energy exhibited by the Republicans of California ought to admonish our friends here to immediate and tireless action There is no enthusiasm among our opponents in this State Seymour and Blair cannot command their efforts as Pendleton would have done and if we make a vigorous push we may succeed in reversing the result of June It is now but little more than three months until the election and it is fully time that organization were begun The harvest will soon be over and people in the country will have leisure to attend to this urgent duty Let us have a Republican organization in every precinct as early as September, and work with California and Nevada to make the vote of the Pacific States a unit for Grant and Colfax

FROM WASHINGTON TERRITORY

[From the Olympia Transcript]

Capt Crosby offers to dispose of his extensive water privileges at Tumwater It is a rare chance for capitalists desiring to engage in manufactures, and such an opportunity is seldom offered They are privileges that will not long remain idle, being equal to any on this northern coast

On Tuesday last Mr L P Beech United States Deputy Surveyor accompanied by a full corps of assistants, left this place for Kittitass valley on the Upper Yakima, where he will devote the remainder of the season to running such lines as may be desirable The party take their entire supplies from here on pack animals and will cross the Cascades at Snoqualmie Pass

The *[illegible]* lays out the following very considerable jobs for the Government to attend to

What this territory needs now, more than anything else is population, and a few hundred thousand dollars of aid from government would bring the people $100,000 properly laid out from Seattle through the Snoqualmie Pass, would open up a direct trade with the country east of the Cascade mountains, and through to Walla Walla, and instill new life not only into Seattle and its immediate surroundings, but the entire country east of the mountains $150 000 expended on the Skagit river and the adjacent tide lands, would open to navigation a large deep river more than fifty miles interior through as rich a country as the sun shines on and dyke in perhaps 40 000 acres of tide land, (and why should not Government dyke these lands for its people? which would very soon contain a population of 50 000 people $100 000 would open a direct and speedy land communication between Gray's Harbor and the mouth of the Columbia river via Shoalwater Bay and Willopa which would develop a perfect garden spot of large dimensions Then there is a fine country lying almost wholly unknown, from the Boisfort country to the Cathlamet, on the Columbia, which $60 000 would open and develop, and make good chances for several hundred pleasant settlements These few appropriations would at once give this Territory a life and impetus heretofore unknown and yet the U S. Treasury would never feel it. It would at once prepare us for the greatest enterprise of the age the Northern Pacific railroad which is soon to bind in the shortest possible circle, the commerce of the world

Monomania in Horses.

In 1806 during the campaign of Austerlitz a Lindmontese officer possessed a beautiful and in other respects a most serviceable mare but which one peculiarity rendered at times exceedingly dangerous for the saddle She had a decided aversion to paper which she immediately recognized the moment she saw it and even in the dark if one or two leaves were rubbed together The effect produced by the sight or sound of it was so prompt and so violent that in many cases she unhorsed her rider and in one case his foot being entangled in the stirrup she dragged him a considerable way over a stony road In other respects this mare had not the slightest fear of objects that would terrify most horses She regarded not the music of the band the whistling of the balls, the roaring of the cannon, the firing of the bivouacs or the glittering of arms The confusion and noise of an engagement made no impression upon her the sight of no other white object affected her, no other sound was regarded the view or the rustling of paper alone roused her to madness All possible means were employed to cure her of this extraordinary and dangerous aberration but without success and her master was at length compelled to sell her for his life was in continual danger

A mare belonged to the Guard Royal from 1816 to 1821 She was perfectly manageable, and betrayed no antipathy to the human being, nor to other animals nor to horses except they were of a light gray color but the moment she saw a gray horse she rushed upon it and attacked it with the [illegible] fury It was the same at all times and everywhere She was all that could be wished in the parade on the route in the ranks in action and in the stable but such was her hatred towards gray or white horses that it was dangerous to place them in the stable with her at whatever distance [illegible] If she [illegible] caught a glimpse of one whether [illegible] she rushed [illegible] until she had [illegible] her halter and [illegible] greatest fury [illegible] [illegible] [illegible]

A mare belonging to the fifth squadron of [illegible] on the contrary all white [illegible] [illegible] white [illegible] the sleeves of shirts and chemises too much [illegible] [illegible] white plumes When any of these white [illegible] and especially in motion were suddenly perceived, if they were of any magnitude and their motion was rapid she was in a dreadful fright [illegible] great size, and moved [illegible] gently [illegible] fast that she would suffocate [illegible] [illegible] singular and particular aversion possess all the characters of true monomania

THE WEEKLY OREGONIAN.

THE WEEKLY OREGONIAN is published this morning It contains the latest telegraphic news from the East and California—a selection of the best articles appearing in THE DAILY OREGONIAN full and reliable news from the Mines, and the most copious commercial information published by any paper in the State

The average amount of reading matter in the WEEKLY OREGONIAN is double that published by any other journal in Oregon and in the particular of Commercial statistics and the Markets we aim to make it the most reliable more especially in matters pertaining to Oregon interests

Single copies 12½ cents or $3 00 per year to any part of the United States or British Columbia

VANCOUVER ITEMS —The subjoined items are from the *Register* Dr Chase late post surgeon and lady, left on Friday morning for Fort Colville We are sorry to learn that Mr William Ryan cut himself severely with a scythe on Thursday We were unable to learn the particulars. The injured man was taken to St. Joseph's Hospital, where he will be tenderly cared for by the Sisters. ..*The Water Works* —Work on this enterprise is being pushed forward with praiseworthy energy The ditch for about three-fourths of the whole distance, is already completed and pipes laid for nearly half a mile. It is confidently predicted that this town will be supplied with water by the company before the 1st of October On the next outgoing steamer Mrs A J Lawrence will leave for Honolulu, Sandwich Islands, where she goes to join her husband who has located himself permanently at that place Mrs L will be accompanied by her brother Curtis F Short, and her sister, Miss Emmaline Short, who visit the Islands for their health At a meeting of the Washington B B Club held Saturday evening July 18th the following officers were elected for the ensuing three months: Capt L S Babbitt, President Wm Turnbull Vice President; Willis Leahy, Secretary; E H Freeman Treasurer J Pratt, M Ball and T Stevens, Directors; L S Babbitt Captain 1st Nine; E Glover, Umpire; E H Freeman, Scorer.. .The light fingered gentleman who lately made a raid on Stewart's stage's saloon, not content with abstracting all the money he found "laying around loose," stole several valuable articles of wearing apparel from the valise of Mr Jacob Felt, which was in a bed room adjoining the bar-room, and after keeping them for a few days clandestinely returned them to the very place from which he took them And the funniest part of it all is that the owner left his valise open when he left the town only a short time before and found it on his return locked tight and the missing articles folded away as snug as you please in the exact manner they were left before the robbery

OREGON CITY ITEMS —We clip the subjoined items from the *Enterprise* On Tuesday evening next a concert and exhibition, comprising select music charades tableaux, vivants etc, will be given at Washington Hall in this city for the benefit of the Baptist Sabbath School library by citizens of Oregon City We have samples of timothy grass in our office, measuring six feet in length, which grew on clay land, owned by Mr Wm. S Partlow of this city On Monday last, Messrs Wm Barlow and Geo A Sheppard left us for Grand Ronde Valley—the latter with his family, intending to make that his future home J E Walsh, recently committed to the Asylum at East Portland, has passed an examination before the faculty in charge of that institution and been discharged, as restored and able to attend to duties, which he resumed here on Thursday Information is wanted of the whereabouts of Joseph Alexander, who resided at Butte Creek in this county for some years, and left there about three years ago, stating that he was going out into the Cascade mountains He was about 50 years of age, medium stature, and showed evidence of insanity Address information to Joseph P Webb, Oregon State papers copy ..Our city has worn a sad appearance for the last week in consequence of the death of two adults and three children in this vicinity The diseases were not contagious but death in every instance was sudden The general health of the community is good, if we except the numerous instances of whooping cough, and in this respect very great improvement may now be noted

STILL LIVING —A report gained circulation, yesterday, that George Townsend who was wounded by a pistol shot several months ago, had died from the effects of the wound. The report was incorrect, as he was still living at ten o'clock last evening. His wound has never healed and he is in a most pitiable condition having no means of support for his family or to procure medical treatment. His wife, a devoted woman, has taken care of him for months as well as she could, and the neighbors have been kind enough to furnish the family with the necessaries of life; but at the best, the poor man and his family have had a hard time of it. Mr. Townsend last on hearing of his condition, hired a nurse to go and set up with him during the night. Will not some of our charitable citizens see to it to-day—this morning—that the family be furnished with relief.

ODD FELLOW'S RELIEF COMMITTEE —The General Relief Committee, constituted of delegates from each of the Odd Fellows' lodges of this city and East Portland, has been organized for the term beginning July 1st and ending January 1st, 1869 The lodges are represented in the Committee as follows Samaritan Lodge, Messrs C H Marvin, J N Dolph and W H. Andrus, Harmony Lodge, Jos. Bachman, G W Robinson, and C O Clark Orient Lodge, East Portland, Messrs Kenworthy, Mad... and J P Garlick; Minerva Lodge, German, Messrs Koster, Jno Wolff and N Oottestren The Committee held its first meeting last Sunday and organized by the election of the following officers, for the term C H Marvin re elected, Secretary, Joseph ...; Treasurer, Capt John Wolff

NEW FIRM.—As will be seen by consulting our advertising columns, ex Sheriff Jacob Stitzel and J B Upton have entered into a co partnership in the law, collection and general agency business and have opened an office in Carter's building. The public need not be told that this new firm can be depended upon for the prompt and correct transaction of all business entrusted to them. The gentlemen composing it are too well known to require anything for. We recommend our readers to read their advertisement. They offer for sale some choice city and county property

LUTHERAN SUNDAY SCHOOL LIBRARY.—The pastor of the Lutheran Church of this city recently organized a Sunday School and the Society has purchased a library of 100 volumes for its use, which will be opened for the first time at the school to-morrow The entire set cost about $200 They are mostly small volumes but well adapted for children's reading The Lutheran Church has been organized but a few months, yet it now has a membership of forty, has purchased this library with a fine book case, and an elegant church organ which cost $300 and has expended considerable other sums of money for church purposes. These are, certainly, signs of prosperity.

A NEVER SWEAT SOCIETY —We learn that certain gentlemen of this city who love their ease have taken advantage of the late hot weather to organize a "Never Sweat Society " The members if caught perspiring must show by evidence that they didn't get into that state through physical exertion or submit to a fine—the money to be expended in iced cobblers for the benefit of the society The society's membership is already very extensive but thus far the fines have been extremely few and the number of cobblers collected scarcely adequate to the absolute wants of the officers, to say nothing of the lay members

AN EDUCATIONAL ASSOCIATION —The organization of an Educational Association for Clarke county W T has been talked of for a considerable time On the 18th inst an adjourned meeting of teachers and friends of education, was held at Vancouver, a constitution and by laws were adopted and the following persons were elected officers of the Association President, S W Brown; Vice Presidents A S. Nicholson and M R Hathaway, Secretary Julius Sulste; Treasurer, A G Cook, Librarian, I T Maulsby The Association is to meet once each month—on the 3d Saturday

UNPAID LETTERS —The following letters are held in the Portland Postoffice for pre-payment M Stock New York City; Capt W P Eaton Lafayette Oregon; J. B Newby, San Francisco; J R Peters, San Francisco; Mrs. Rosa Mocon Santa Cruz M H Abbott, Albany Oregon Miss Libby McCormic St. Anthony Minnesota J W McCormick, St Anthony Minnesota Amos E Rodgers La Grande, Mrs Mattie Mack Astoria

A HOMESTEAD ASSOCIATION —We are informed that a number of gentlemen of this city are taking the initiatory steps for the organization of a Homestead Association, on the general plan of such organizations at San Francisco Quite a number of persons have already engaged to take shares and a fine tract of land has been negotiated for Full particulars will be furnished in a few days.

EXECUTOR'S SALE OF REAL ESTATE —On Saturday, August 22d, the Executors of the Estate of O N Humiston, deceased, will offer at public auction in this city the following described real estate The north half of lot 1 in block 76; the south half of lot 1 in same block, and the undivided half of block 230 Sale at the court house terms, coin, part down and part on time See advertisement.

CIRCUIT COURT—UPTON JUDGE —The following were the proceedings yesterday

Stephen Coffin vs George Vaughn issues to be made up at chambers on three days notice to the plaintiff Shattuck, and Page for plaintiff Strong for defendant

Stephens vs ... argued and submitted ... and Shattuck for plaintiff; Friend ... for defendant

A GOOD JOB —Visiting the Lutheran Church yesterday to look at the new Sunday School library our attention was called to the case in which the books are kept It is a nice job of work and was done remarkably cheap Messrs. Jansen & Rethlefsen a couple of young carpenters who have lately opened a shop on Front street were the makers.

NUISANCES —We hear very frequent and loud complaints about the stenches which proceed from privies in the densely built portions of the city There is one on Morrison street between Front and First which is an intolerable nuisance to the neighborhood Can't something be done by somebody to improve the condition of the city in this respect.

PERSONAL.—We had the pleasure yesterday of meeting with our old friend Dr O P S Plummer who has come here to assist in the telegraph office for a few weeks —probably till November The Doctor is a genial gentleman and we are only sorry that his stay is not to be much longer

RACE TO-DAY —There will be a pacing race this afternoon, over the track at the White House between Pat Smith's bay gelding Digger and W Nebrick's clay bank gelding Buckskin mile heats two best in three $100 a side

RETURNED —Our friend James B ... who has been practicing law for the last year at Oregon City has concluded that after all ... and has accordingly returned here and stuck out his shingle He may be found at No 15 ... Carter's building

CARTER HAYDEN & CO S NEW MILL.—We are informed that the new saw mill of Carter Hayden & Co is nearly ready to begin work It is probable steam will be got up during next week It is an extensive and finely constructed establishment having cost near $40 000

OREGON PRODUCTS —The following were the receipts of yesterday 401 bags wheat ... middlings 83 hf bbls dried apples ... casks ... 31 boxes butter, 2 boxes eggs ... 10 rolls leather

FIRE EXTINGUISHER —Messrs Atkins ... of the firm of Parrish & Atkins inform us that they have made arrangements with Mr P D Moore for the right to dispose of the patent Fire Extinguisher in the counties of Clackamas Multnomah and Columbia

RELIGIOUS —There will be preaching every Sunday at the colored school house corner of Fourth and Columbia streets at 11 A M and 8 P M by Rev James Lodge Sunday School at 2½ o'clock P M.

Manufactory Established in June, 1851
STEAM POWER, NOS 625 AND 647 FRONT ST

HAS CONSTANTLY ON HAND GROUND AND ROASTED COFFEE GREEN COFFEE of the best qualities CREAM OF TARTAR and SPICES of all sorts

The undersigned who has always enjoyed public confidence for the excellent quality of his Coffee neglects nothing to justify the good name acquired by his productions the sale of which daily increases The acknowledged superiority of his merchandise which commands here and in the markets of the interior a relatively higher price excites the cupidity of some manufacturers and every day he sees increasing the number of those who by counterfeit or imitation of his mark seek to deceive the public palming upon them their inferior productions for the genuine G VENARD CHARTRES COFFEE This fraud can deceive nobody after a trial but only adds to the favorable opinion of the consumers the very flattering though unwilling testimony of the counterfeiters Nevertheless buyers should be forewarned and placed on their guard against this practice

HOSTETTER'S
CELEBRATED STOMACH BITTERS!
A Pure and Powerful Tonic,
Corrective and Alterative, of wonderful efficacy in Diseases of the
STOMACH, LIVER AND BOWELS.
PROTECTIVE PROPERTIES.

Prevents Fever and Ague and Bilious Remittent Fevers; Fortifies the System against Miasma and the evil effects of unwholesome water invigorates the organs of digestion and the bowels, Steadies the Nerves and tends to Prolong Life.

REMEDIAL PROPERTIES.

Cures Dyspepsia, Liver Complaint, Sick and Nervous Headache, General Debility, Nervousness, Depression of Spirits Constipation Colic, Intermittent Fevers, Sea Sickness, Cramps and Spasms and all complaints of either sex arising from Bodily Weakness, whether inherent in the system or PRODUCED BY SPECIAL CAUSES.

NOTHING THAT IS NOT WHOLESOME, GENIAL, and restorative in its nature, enters into the composition of HOSTETTER'S STOMACH BITTERS This popular preparation contains no mineral of any kind; no deadly botanical element no fiery excitant, but is a combination of the extracts of rare balsamic herbs and plants with the purest and mildest of all diffusive stimulants

The weak stomach is rapidly invigorated and the appetite restored by this Tonic, and hence it works wonders in cases of Dyspepsia and in less confirmed forms of Indigestion Acting as a gentle and painless aperient, as well as upon the liver it also invariably relieves the Constipation superinduced by irregular action of the digestive and secretive organs

Persons of feeble habit, liable to Nervous Attacks Lowness of Spirits and Fits of Languor find prompt and permanent relief from the Bitters The testimony on this point is conclusive and from both sexes

As a Genial Tonic HOSTETTER'S BITTERS produce effects which must be experienced or witnessed before they can be fully appreciated In cases of Constitutional Weakness Premature Decay and Debility and Decrepitude arising from old age it exercises the electric influence In the convalescent stages of all diseases it operates as a delightful invigorant When the powers of nature are relaxed it operates to re-enforce and re-establish them

Last but not least it is the only safe stimulant, being manufactured from sound and innocuous materials, and entirely free from the acrid elements present more or less in all the ordinary tonics and stomachics of the day

New York wheat market [illegible] steady at $[illegible] and $ [illegible] charged

At San Francisco, [illegible] extra flour is quoted at $6 55 [illegible] Wheat $[illegible] [illegible] at $1 [illegible] 50

[illegible] the Portland market [illegible] shipments limited [illegible] The [illegible] Stephens which sailed W. [illegible] evening [illegible] following lots of produce: 12 casks [illegible] eggs 10 bbls beef 6 bbls pork, 67 hf bbls and [illegible] 10 bags wheat, 1 bbl wine, 18 sk[illegible] [illegible] 93 hf bbls dried apples, 75 sks flax [illegible] lard, 40 cs and 18 gunnies bacon 2,641 qr sks flour, 22 casks and 12 hf bbls salmon, 1 bbl oil, 1 [illegible] sks oats, 243 bales wool and 10 gunnies hams. Stocks [illegible] duce on hand are light. Harvest having commenced most of the mills have closed, to avail themselves [illegible] season of non-receipts for making necessary repairs. Until the crops shall be well gathered the [illegible] market will remain inactive, with all quotations [illegible] nominal.

The Crosby sailed Thursday morning with about 5 tons flour and bran for Victoria. Shipments [illegible] that direction have become so light that the Crosby will be withdrawn from the trade.

Freights between this port and San Francisco, [illegible] sailing vessels have been reduced to nearly one-half the rates heretofore charged by the steamers. This may enable shippers to continue sending away breadstuffs without loss notwithstanding the decline in the markets elsewhere. The bark Whistler is loading with wheat and flour for Sidney Australia and will sail early the coming week. The Alvarita arrived Sunday morning with a full cargo of merchandise which is already discharged. She is to load with lumber at Oak Point. The barks [illegible], Lone Yankee, Zephyr and the brig Brewster are on the way here and are expected daily to arrive.

The merchandise market remains, in general, rather quiet, though there is a reasonable activity in groceries. Prices, with few exceptions are unchanged.

Wholesale and Jobbing Prices.

Weekly Retail Family Market.

PORTLAND, July 24, 1868.

Early green fruits are unusually scarce this season. New apples and pears have been in the market for a week past, but the supply is not equal to one-half the [illegible]. Berries are very scarce. A few late cherries of [illegible] inferior quality are yet in market. Plums made their first appearance a few days ago. They are [illegible] at 20c per lb. The plum crop has failed this year, but there is a fair prospect for a supply of choice Italian and French prunes.

Dairy products are without any particular change.

Provisions quiet except hams, which are now in demand and becoming scarce. We quote them one to two cents higher to-day.

V[illegible] of finest quality are abundant and cheap.

DR. HOSTETTER'S STOMACH BITTERS

Although the fame of this renowned invigorant rests mainly on its astonishing cures of Dyspepsia, Liver Complaint and intestinal disorders, it is equally efficacious in nervous complaints. Thousands of ladies resort to it as a remedy for hysteria, fluttering of the heart, nervous headache, vertigo, general debility and all peculiar disturbances and derangements to which, as a sex they are subject. It cheers and lightens the depressed mental powers as well as strengthens the body, and its use is never followed by any unpleasant reaction. Sold by all Druggists and dealers everywhere.

THESE WHEELS, UNEQUALLED AND UNRIVALLED in the United States or the world, have been fully tested on this coast, many being in use at this date, driving all kinds of machinery, Saw Mills, Flour Mills, Quartz Mills, Woolen Factories, &c., &c.

CAUTION.

To all whom it may concern: I hereby give notice that the so-called "Shipley's Pacific Turbine Water Wheel" is a direct infringement and copy of the "James Leffel's American Double Turbine Water Wheel" and its manufacture and use is hereby prohibited. Any person or persons making using, constructing or vending said Water Wheels make themselves liable to heavy damages and penalties. Parties interested will take notice, for I shall prosecute said infringements to the utmost extent of the law.

That all may know I mean what I say, and am not playing "bluff," I give the following extract from a legal opinion on this subject from one of the most eminent Patent Attorneys in the United States.

WASHINGTON, D C April 17, 1868

"MR A MYERS—In accordance with your request we have examined the patents of Shipley on Water Wheels and are clearly of the opinion that they both infringe the Leffel patents. In both of Shipley's Wheels he uses the upper and lower tiers of buckets precisely as Leffel does and in this he clearly infringes. The fact that Shipley has applied another series of buckets in addition to those used by Leffel, does not relieve him from the consequences of infringement at all. He has no right to use those two tiers of buckets, whether alone or with a third, or any other number of tiers added. It is a clear infringement. Respectfully yours,
DODGE & MUNN

I hereby give notice that I will prosecute every infringement on our Patents whether it is the maker, user, buyer or seller. Every infringement whether our claims are used in whole or in part, will be prosecuted.

IS WITHOUT DOUBT THE MOST WONDERFUL EYE HEALER that has yet been discovered.

It CURES the most stubborn and hopeless cases of CHRONIC INFLAMMATIONS GRANULATED LIDS FILMS &c., as has been sufficiently demonstrated during the few months in which it has been brought into public notice. The proprietor is so fully convinced of its INFALLIBILITY that he WARRANTS A CURE OR REFUNDS THE MONEY. It can do the eyes no harm and a trial of it is therefore without injury or expense to the patient if a cure is not effected.

It has cured cases of FIVE SIX NINE FIFTEEN and even EIGHTEEN YEARS standing in Harrisburg [illegible] county, Oregon and its vicinity, to which the following persons will bear witness:

TO THE UNFORTUNATE.
NEW REMEDIES, NEW REMEDIES

Dr Gibbon's Dispensary,

616 KEARNEY STREET, NEAR COMMERCIAL, San Francisco. Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhea, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases of years standing, and Ulcerated legs successfully treated.

Horrible Diseases.

How many thousands of persons of both male and female, are there who are suffering at this moment [illegible] from the effects of secret indulgences or from virus absorbed into the system. Look at their pallid emaciated and disfigured faces and their broken down constitutions, disqualifying them for the happiness of marriage or the enjoyment of life. In this horrid situation they [illegible] suffer until death closes the scene. Let parents, guardians friends attend to those who are suffering with any of these horrible and [illegible] maladies, see that they are cared for and cured before it is too late. Send them immediately to Doctor Gibbon, a physician who has made private diseases his especial study for years and who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those who are afflicted or to those who are interested in the welfare of their friends to be careful of the many pretended doctors who infest all cities [illegible] their skill in curing all diseases. In a few days imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful and make strict inquiry or you may fall into the hands of those charlatans.

Seminal Weakness.

Seminal Emissions the consequence of self abuse. This solitary vice or depraved sexual indulgence is practised by the youth of both sexes to an almost unlimited extent producing with unerring certainty, the following train of morbid symptoms unless combated by scientific medical measures, viz: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the face, furred tongue, fetid breath, coughs, consumption, night sweats, monomania and frequently insanity. If relief be not obtained should apply immediately either in person or by letter and have a cure effected by his new and scientific mode of treating this disease which never fails of effecting a quick and radical cure. Dr. G. will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by either of the San Francisco quacks.

MARRIED MEN.

Or those who contemplate marriage who are suffering under any of these frightful maladies should not forget the sacred responsibility resting upon them nor delay to obtain immediate relief.

DOCTOR GIBBON is responsible and will give to each patient a written instrument, binding himself to effect a radical and permanent cure or make no charge.

CURED AT HOME.

Persons at a distance may be CURED AT HOME, by addressing a letter to Dr. Gibbon stating case, symptoms, length of time the disease has continued and have medicines promptly forwarded, free from damage and curiosity, to any part of the country with full and plain directions for use, for Ten Dollars sent in registered letter or through Wells, Fargo & Co.

Caution to the Unfortunate.

Beware of the San Francisco quacks and pretenders who, with bogus sworn to certificates dupe the unwary. Some of the self styled doctors, whose names are to be found in the daily and weekly newspapers of San Francisco and other places, are tradesmen and became too lazy to work at their trades. Some are tinsmiths, shoemakers, newspaper carriers, intelligence office keepers, etc. Look over the San Francisco Directory and you will not find their Medical Institutes in it, but you will find their former occupations in it. Look at the Directory for 1862 and 1863. The only way to avoid imposition is to make enquiry—it will cost you nothing and may save you many regrets; for, as advertising physicians, in eight cases out of ten, are bogus, there is no safety in trusting any of them until you know who and what they are. Dr. Gibbon does not deceive people by exhibiting bogus titles, certificates, pretended patient's letters, etc. Dr. Gibbon will satisfy persons who may call at his office of his ability to treat diseases that he proposes to cure.

Address DR. J. F. GIBBON, 616 Kearney street, corner Commercial, San Francisco. Post Office Box 952.

REMEMBER TO PUT BOX 952 ON THE LETTER.
